WHO WE ARE

SERVICE YOU CAN COUNT ON

Cummins Allison is a global leader in the development and manufacture of money-processing solutions that are cost-effective and highly-reliable. We take customer input from concept and design through sales, service and support, providing organizations with new and innovative technology.

Our portfolio includes:

- Currency counting, sorting and imaging
- Coin counting and sorting
- Check imaging and processing
- Casino ticket processing
- Full-function ATMs
- Software solutions for process improvement

Our customers in financial, cash-in-transit, gaming, retail and other industries trust us to provide user-friendly solutions that help them work more effectively, eliminate errors, and reduce time spent on repetitive tasks.

Our dedicated customer-first approach includes a proactive focus, technical expertise and fast response times to serve you better. We minimize your downtime when repairs are needed with service coverage that is unmatched in the industry. Service level agreements are available for many of our products.

Service highlights:

- More than 480 skilled local professionals, nationwide
- 43 U.S. offices with local parts inventories
- Average response is within 8 business hours
- 97% of our customers would recommend us to others

Effective local service and support preserve Cummins Allison value today and in the years to come. Our technicians receive frequent, rigorous training at our facilities to learn and refresh product and application knowledge. They have the skills needed to keep your operations running at peak efficiency.

ATMs

Our ATMs offer financial institutions a range of options such as cash withdrawal, envelope, or automated deposit to simplify cash and check transactions for your customers and staff.

Easy-to-use, reliable machines feature high performance and maximum availability. Experience a whole new level of customer service with Cummins Allison.

JetScan iFX® i100 and i200

Cash and check scanning –

Save time and cut costs by counting, scanning and imaging currency and checks on one device at the fastest speeds available. Process 1,600 bills, capture 1,200 serial number images, and scan 400 checks per minute.

Ticket processing – Process mixed casino TITO tickets and currency at 1,200 documents in a single pass.

“Cummins Allison made our business its first priority. Their consultative approach took into account our current and future needs to ensure we were implementing the best solution to meet our needs today, and into the future.”

Gail Burnam, Senior Vice President,
RiverHills Bank

JetScan iFX Software Deposit Balancing Manager (DBM) – Scan and prepare deposits in minutes. Send electronic images to financial institutions for faster deposit processing.

Image Management Software (IMS) – Eliminate the cost of keeping physical documents or microfiche records. Digitally capture, store and retrieve check, currency and ticket images. Compare current and historical serial number data for financial and law-enforcement tracking.

Ticket Reconciliation Software (TRS) – Match casino ticket validation numbers with dollar amounts. Generate easy, accurate balancing and auditing reports and maintain compliance with gaming regulations.

JetScan® Currency Scanners

Count and denominate 1,500 mixed bills per minute. Our full line of desktop currency counting solutions includes 1-, 1.5- and 2-pocket options.

JetScan iFX i400

Process cash or mixed cash and tickets at high speeds with customizable 3- to 17-pocket sorters in vertical and horizontal configurations. The most compact, flexible, scalable, and cost-effective multi-pocket solution.

JetScan MPX 8200

High-volume, multi-pocket cash sorting in vaults and soft count rooms. Lowest total cost of ownership, with options for continuous batch processing, strapping, and ticket imaging.

JetScan MPS 4200

Affordable, high-volume, multi-pocket cash and ticket processing and imaging. Especially attractive to businesses tight on space or budget.

Money Machine® 2

Our self-service coin machine is faster, has greater coin capacity, is highly accurate and easy to use.

- Financial institutions benefit from increased traffic, enhanced loyalty and improved operational efficiency.
- Grocers can provide a better service to their customers with machines that offer greater uptime and increase their profitability.

Coin management program (CMP) – Leave the coin handling to us. With CMP, we monitor machines for maximum uptime, schedule pickups and processing, and give you a detailed report of all transactions. CMP removes the risks associated with employee-handled coin.

JetSort® Coin Sorters

Sort up to 10,000 coins or tokens per minute with 99.995% accuracy and unmatched reliability. JetSort is the fastest, most durable high-speed sorter. Compact and mid-size for tabletop plus floor models for higher volumes.

Cash Drawer Processing Solutions

Count cash drawers and self-checkouts quickly, rebuild tills efficiently, deposit checks electronically for faster credit, and send totals to host systems or printed reports.

Teller and RDC Check Scanners

Branch, vault and RDC check-processing solutions ensure that tellers and RDC merchants have the right check scanner to get the job done.

Shredders

High-quality office and commercial shredders fill every business need, from strip-cut and cross-cut, personal-size to high-volume models, plus supplies and accessories.
